

## Sully Shoulder Brace

---

### Description

The Sully Brace provides shoulder immobilization and controlled range of motion for anterior, multi-directional, inferior, and posterior instabilities, rotator cuff deceleration, shoulder separations, and muscle strains. The shoulder brace is designed to stabilize, assist, or restrict movement of the shoulder post-injury and post-operatively. This brace is ideal for rugby and cricket players requiring shoulder support.

### Indications

- Anterior shoulder instabilities
- Multi-directional shoulder instabilities
- Inferior shoulder instabilities
- Posterior shoulder instabilities
- Rotator cuff deceleration
- Muscle strains around the shoulder
