

DonJoy® ActiStrap

The ActiStrap back support from Donjoy is an elastic lumbar support made from breathable material with an additional strong compression strap (Pull Wrap Corset).

The brace provides enhanced posture control, and provides effective compression to alleviate lumbar pain.

The ActiStrap's soft breathable material make this one of the best temperature controlled braces on the market.

When can I use the Immostrap Back Support?

The ActiStrap back support can be used for

- acute or subacute lower back pain,
- chronic lower back pain and
- for lumbar sciatica.
- The back support is suitable for those who lead an active lifestyle, and can be used during heavy duty tasks and leisure activities.
- The ActiStrap is ideal for managing lower back pain when traveling long distances and lower back pain associated with prolonged periods of sitting
