

# TRU-PULL LITE<sup>®</sup>

PATELLOFEMORAL BRACE

**NEW!**

# TRU-PULL LITE<sup>®</sup> PATELLOFEMORAL BRACE

## Patient Type

Women, men, runners, recreational athletes, and patients who want to wear a patellofemoral brace over long periods of time.

## Indication

For acute mild to moderate anterior knee pain, support for patellar instability, lateral subluxation and maltracking

## Features and Benefits

- Short and powerful 8.5" length design keeps the brace at a minimal size on the leg but with maximum power to pull the patella into alignment.

- Patented Dual Durometer Buttress System is a soft and tacky buttress pad which interfaces directly with the skin providing a consistent corrective force on the patella during activity.

- New moisture wicking mesh fabric is breathable, anti-microbial and hypoallergenic; thereby increases patient comfort & compliance when wearing a brace all day or during strenuous activities.

- Semi flexible nylon hinges included with every brace provide moderate medial/lateral support.

**Recommended HCPCS Code: L1810 & L2795**

## Powerful patella control - Done Eloquently

Tru-Pull patellofemoral braces incorporate the same patented technology of independent pull straps which apply a "true" and consistent pull on the patella during flexion and extension, thereby realigning the patella.

The new Tru-Pull Lite is DonJoy's most comfortable, low profile and shortest patellofemoral brace, yet strong enough to relieve pain!

## ORDERING INFORMATION

Part Number	Description	SIZE
11-0260-x	TRU-PULL LITE (Right)	XS-XXXL
11-0261-x	TRU-PULL LITE (Left)	XS-XXXL
25-9985	BUTTRESS KIT	Universal
